## Introduction to MD Boys State

- American Legion Boys State is among the most respected and selective educational programs of government instruction for high school students. It is a participatory program where each participant becomes a part of the operation of his local and state government.
- Boys State has been a program of The American Legion since 1935 when it organized to counter the Fascist inspired Young Pioneer Camps. The program was the idea of two Illinois Legionnaires, Hayes Kennedy and Harold Card, who organized the first Boys State at the Illinois State Fairgrounds in Springfield. The American Legion Auxiliary sponsors a similar program for females called Girls State.
- At American Legion Boys State, participants are exposed to the rights and privileges, the duties and the responsibilities of a franchised citizen. The training is objective and practical with city and state governments operated by the students elected to the various offices.

## Introduction to MD Boys State

- Activities include legislative sessions, court proceedings, law enforcement presentations, assemblies, bands, chorus and recreational programs.
- High school juniors are selected by local American Legion posts to attend the program. In most cases, expenses associated with attending this program are paid by a sponsoring American Legion post, a local business or another community-based organization.
- In Maryland, Boys State is conducted annually, since 1947, and typically begins on Fathers Day and runs through the following Saturday. To be eligible for Boys State, a youth must be a male who has successfully completed their junior year in high school by the beginning of Boys State. Any boy who has previously attended a Boys State is not eligible.
- **MD Boys State is not an easy summer program and there is little down-time during the entire week. The schedule and curriculum is demanding and stressful at times.**
- **Come with a positive attitude and willingness to work together with others and the week shall fly by.**

**REMEMBER THIS MAY BE THE MOST CHALLENGING, YET  
REWARDING, THING IN YOUR LIFE**

- **All medications for the participant must be completely and accurately entered in the medical history section of our CampDoc portal.**
- **Any student arriving to MD Boys State without prescribed medications, or without the medications being completely and accurately documented in the CampDoc portal shall be refused enrollment at the registration desk, and parents shall be required to provide transportation for any such student back to their home of record.**
